

LaTouche Musicale

Make music. We take care of the rest ✨

latouchemusical.com

Who we are?

La Touche Musicale is an innovative French company that creates **AI-powered music apps** to simplify the daily lives of millions of musicians around the world through **music transcription** and **instrumental learning**.

12

apps available for **all instruments**

1

single account to access all apps

400K

musicians registered on our services

Mourad Aumar - Software Engineer / **Joris Astier** - Marketing & communication /
Dimitri Moulin - Finance & administration / **Nicolas M'Bark** - Software Engineer

Problems & opportunities

Difficulty obtaining
quality sheet music
from audio.

**Generic tools not
adapted** to the specific
needs of each instrument.

High demand for **simple,
reliable and automated
transcription tools.**

Growing interest in
AI-powered tools tailored
to **specific instruments.**

Our solution

We have built a **powerful scalable system** that includes :

A single hub for all the apps in our ecosystem

Compatible with YouTube links and audio files

Transcription by our instrument-specific AIs

Pro formats supported: PDF, MIDI, MusicXML

How does it work?

3 simple steps to transcribe all your songs into sheet music :

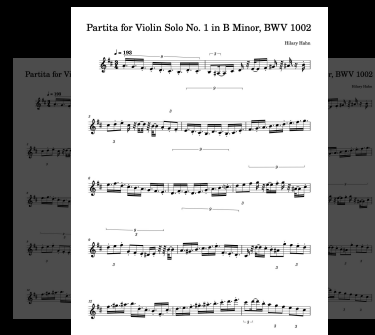

Choose your song

Choose from YouTube link or audio files.
In this example, we choose a violin track
on YouTube.

Select the relevant app

Each app features an AI specialized in a
particular instrument. In this example,
we choose ViolinConvert.

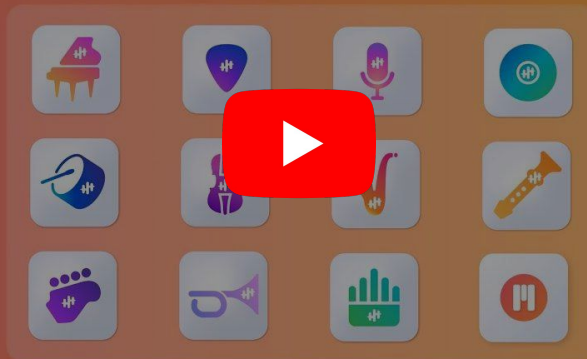

Retrieve your score

After the transcription, you can play, edit
and download your score in PDF, MIDI
and MusicXML format.

Let the demo speak for itself

One single place. Endless possibilities

La Touche Musicale apps work with all your instruments.

Advantages

Nothing Else Matters (Guitar Solo)

Metallica

~92% note detection accuracy

Thanks to AI models specifically trained and optimized for each instrument.

10 instruments handled & growing

Including piano, guitar, vocals, drums, violin, flute, bass, saxophone ...

Editable sheet after transcription

Fine-tune your result directly within the app — no external software needed.

Full transcription in ~1 minute

From upload to PDF, MIDI & MusicXML — fast, scalable and efficient.

Products and offers

Free

€0 /month

Free forever
